

February Enrichment Class Newsletter 2.5's

This month is filled with love and friendship. We begin by celebrating our differences and yet how much we are alike. The snow is melting and some people are worth melting for. We use colored water to decorate the snow mounds beside the walkways. We improve reasoning skills by playing matching games, Frozen card character matching and mitten matching. Then we hang our mittens on the clothesline with a clothespin. Work those fine motor pinch grips! We will need them for printing and lacing skills. Tossing snowballs is part of the CATCH Curriculum. We practice ice skating on wax paper on our carpet to Orchestra music. Interpretive scarf dancing includes "Twist and Shout" "Snow is Falling".

Visiting the three year old classroom is fun we will bring our puzzles and pal up to complete them. Puzzle Pals are our friends. We will be sending out hugs to our friends and families. If you would like a card sent to a family member please send us an address and a stamp. We will learn the "5 Little Valentine's" poem and make roses from coffee filters.

Looking at our Family Tree bulletin board we name the people that we love and count the members of our families. We compare their hair color and eye color. We are all different but we are all part of the same family.

Our stories include: One Two One Pair!, Big Hugs Little Hugs, Biscuit's Valentine.

Love is in the air look for Pink, Red and White around us,

Mrs. Craft and Mrs. Craney
