

We love March because it marks the beginning of Spring. Exploring outside we'll find new signs of life. Our themes include Farm Fun, Fruits and Vegetables, Rainbow on my Plate, The Empty Cocoon Lifecycle of a Butterfly, and we finish with Egg-stra Special Colors.

Celebrating Dr. Seuss' birthday is a wonderful way to start the month. Monday March 2, 2020 is National Education Association's Read Across America Day and this year, the book is the Seuss classic, One Fish Two Fish. *The "I Can Do That! Dr. Seuss Game" brings the playthings from the book, The Cat In The Hat, to life! Can we take 4 giant steps with a boat on our head? Our fun Cat In The Hat Snack is a cheese stick that looks like the Cat in the Hat.* Please consider coming into the class one day and reading your child's favorite book to us. I am sending out a sign up genius.

Green and Pink are the colors of the month. We'll continue tracing our name. The CATCH program begins with the balance beam, parachute play hula hoops and beach balls. We are movin' and groovin' into March with Celtic Music and an Irish Jig. In Art we will be exploring with tissue, watercolors, chalk, and pastels.

Our religious discoveries include Jesus traveling to Jerusalem and God Keeping a Promise signified by the rainbow.

Mr. Potato Head is funny looking we can rearrange his parts and pieces. Taking turns and playing together continue throughout the month we play more group games and even have a Puzzle Pal to help us accomplish putting the puzzles with 10+ pieces together. Our games have dice where we can count up to 6 and move that many objects. Painting together at the easel encourages interaction and verbal communication.
