We are working on learning life principles through play. Games hold a child's attention, allowing lessons to sink in, in the spirit of fun. Children are more likely to remember what they have learned through play. Consider the character traits that are fostered during a simple game: humor, fairness, honesty, generosity, concentration, flexibility, and obedience to rules, and sensitivity.

We complete puzzles together, taking turns adding pieces. Parents encourage sharing by sending snack prepackaged that we share with friends. We will be spending more time outside every day. We play together in the same area with toys that are multi pieces like blocks and kitchen. We share ideas and thoughts with each other.

Easter Blessings,

Mrs. Craft & Mrs. Woltjen & Mrs. Clark
